

## OBJECTIVE

The Fund aims in AUD to outperform the MSCI Daily World Total Return Net World Index, after management costs and usual expenses, over rolling 3 to 5 year periods.

## STRATEGY

The Fund is an actively managed portfolio of global equities with a high quality bias and which are listed on recognised exchanges. The Fund is exposed principally to high quality international listed companies. It seeks to invest in companies with predictable revenue growth that produce sustainable economic value over the long-term. The Fund can have material exposure to cash where the Portfolio Manager considers this appropriate. Regional positioning is driven by bottom-up stock selection. The investment exposure is not subject to any geographical restrictions except that exposure to 'emerging' market listed companies is limited to no more than 30% of the assets. Sector positioning is also driven by bottom-up stock selection, and the investment exposure is not subject to any sector restrictions.

## MONTHLY COMMENTARY

The SPW Global High Quality Fund outperformed the MSCI World Index during the month by 0.3%, with the fund gaining 3.8%. We saw strong performance from our Chinese online games names with excitement surrounding the recently developed survival game format. NetEase (+18.4%) was the best performer of the month posting solid results. Given the discount that it trades at compared to its Chinese internet peers, this was enough to see a rerating. Tencent (+15.1%) posted a fantastic set of results, growing their top line 61% (in RMB) year on year. Edwards Lifesciences (+16.1%) and Yum! Brands (+14.0%) also strongly outperformed the market. Priceline (-7.8%), after weak guidance in their results, and Cognizant (-3.0%) were the laggards.
